As above

Claims 10-13

The methods defined by claims 10-13 do not involve an inventive step when compared with the document because various Chinese herbs have been used to treat respiratory disorders.

Claims 2-3, 8 lack clarity because it is not clear as to the meaning of "the composition is relative to a placebo-controlled trial".

Furthermore descriptive phrases place no limitation upon the scope of a composition claim.

**Continuation of I**

Rule 67 lists the subject matter which under Article 34(4)(a)(i) an international preliminary examination is not required to be carried out. At item (iv) it specifies methods for treatment of the human or animal body by surgery or therapy, as well as diagnostic methods, as such matter. However the agreement between WIPO and Australia further qualifies this by excepting from exclusion any subject matter which is examined under national grant procedures. Claims 7-12 have nonetheless been considered because the identified subject matter does not contravene Australian law.
